

JENNIFER M. GRANHOLM
GOVERNOR

STATE OF MICHIGAN
DEPARTMENT OF HUMAN SERVICES
LANSING

MARIANNE UDOW
DIRECTOR

February 7, 2006

The Honorable Bill Hardiman, Chair
Senate Appropriations Subcommittee on DHS
Michigan State Senate
Lansing, Michigan 48933

The Honorable Rick Shaffer, Chair
House Appropriations Subcommittee on DHS
Michigan House of Representatives
Lansing, Michigan 48933

Dear Senator Hardiman and Representative Shaffer:

Sections 261 and 262 of Public Act 147 of 2005 are integrally tied together and any actions taken to accomplish one section will apply to and affect the other.

Section 262 of 2005 Public Act 147 requires the Department of Human Services (DHS) to report on the status of DHS efforts to comply with this section. The section reads as follows: *The department, in conjunction with the county department of human services boards of directors and the department of management and budget, shall develop a plan to assist local services delivery effectiveness and efficiency; by maximizing use of state resources while responding to unique needs in geographic regions of the state.*

DHS has in fact been working toward this end for many years. This has been evident in reducing the number of DHS offices and working with other state departments to co-locate staff in a single office. DHS Facilities Management has developed the plans for these activities.

The primary example of this has been the effort to create dual county operations and where possible to move both operations into a single consolidated office. Attached are documents that show: 1) the number of dual county operations that have been created and the date of their creation, 2) a matrix showing the efficiencies that have been accomplished by dual configurations.

Attached are other documents to show what has been done to: 1) facilitate consolidations mandated by DMB to reduce rent and building occupancy costs, and 2) facilitate co-location of DHS staff with staff from other state agencies.

Other examples of what DHS has been doing to maximize services while maintaining a reduction in administrative costs include: 1) creating single business offices for dual counties, 2) creating regional accounting offices for multiple county offices (e.g. Region One Accounting Office), 3) developing Family Resource Centers in local schools, 4) consolidating district offices in Wayne County, 5) develop centralized units to process work (e.g. Healthy Kids), 6) developing central call units, 7) developing single phone system for Wayne County, 8) creating Transparent County Lines for assistance payment programs, 9) improving computer processes (e.g. Consolidated Data Inquiry Screen and Automated Find and Fix).

For FY 2006 we are involved with a major restructuring of service delivery for Counties on a regionalized basis. These services will include, but are not limited to 1) juvenile justice services, 2) adoption services, 3) MA error reduction, 4) long-term care determination, and 5) contract coordination/initiation/monitoring.

Jim Nye has contacted the Michigan County Social Services Association and they have agreed to work with the Department of Human Services and the Department of Management and Budget to facilitate working with county human services boards to develop a plan for restructuring local offices and find ways to increase local services delivery effectiveness and maximize use of state resources

Major systems improvements will be implemented in FY 2007 with the introduction of the Bridges system. It is expected that the system will greatly reduce the paperwork of assistance Payment staff, allowing them to focus more on human services not just completing paperwork. There are also systems improvements for services staff being developed through the Services Workers Support System to reduce the inputting redundancy of case information.

As you can see, there have been and continue to be many things that DHS is doing to accomplish the mandates of these two sections of PA 147 of 2005. Thank you for the opportunity to highlight this information.

Sincerely,

A handwritten signature in black ink, appearing to read "Marianne Udow", with a stylized flourish at the end.

Marianne Udow

Subject: FIA Plan for Facility Consolidation

Date: February 6, 2003

The following was developed to share with the Governor's Office.

Facility consolidation is in response to DMB directive to reduce rent and building occupancy costs. Most recent correspondence is dated October 28, 2002, see attached.

We approached the need to consolidate facility operations based on three major phases. The first phase involved relocating a variety of central office staff, who worked in county locations to the main FIA office. The second phase focused on reducing the number of FIA offices in a county and centralizing FIA operations in fewer or a single county office. The third phase will continue the reduction of FIA offices in a county and in some smaller dual counties reduce operations in the smallest office to part-time with the partner county providing full-time comprehensive service delivery to both counties. The phases were sequenced to minimize customer impact.

The attached draft plan was jointly developed by DMB, FIA Facilities Management and Field Operations. The following describes the planning considerations we utilize to determine the feasibility and viability of each facility closing.

In Phase I, cost reduction was first achieved by moving central office outstationed staff from multiple lease sites into local FIA office building.

- Kalamazoo County – Office of Quality Assurance staff moved to local office.
Savings: \$20,000/year.
- Midland County – Office of Quality Assurance staff moved to local office.
Savings: \$9,000/year.
- Genesee County – Child Support and Internal Audit staff moved to local office.
Savings \$157,000.

These moves occurred in Fiscal year 2002. Total savings - \$186,000. No customer impact.

In Phase II we achieved cost reduction by closing satellite offices in Berrien and Ottawa Counties. These Satellite offices only provided cash assistance and limited fiscal services: No children's or adult services.

- Berrien's Niles office closed September 24, 2002. All staff relocated to Benton Harbor office. *Savings: \$60,000.*
- Ottawa's Grand Haven office closed October 24, 2002. All staff relocated to Holland office. *Savings: \$92,400.*

We completed geo-mapping for both counties to determine location of current customers. Ottawa established a new bus line between Grand Haven and Holland to facilitate customer travel to Holland office. We established a 1-800 toll-free number in Berrien County for Niles customers to contact the Benton Harbor office.

Total Savings: \$152,400. Full-service, full-time office maintained in county.

Wayne County continued to consolidate General Services Administration (cash assistance and fiscal services) District offices.

- Romulus District office closed May 13, 2002.
- Kercheval-Townsend District office closed October 22, 2002.
- Two other sites, Highland Park-Pitkin and Warren-Connor District offices, are scheduled to close by March 31, 2003.

For Phase III other Outstate (all counties except Wayne) County and Satellite offices are being considered for consolidation. See attached listing and space needs. (NOTE: Both Mackinac and Montmorency County discussions are on hold).

The following represents the major issues we consider when determining the feasibility and viability of further office consolidations.

- Geo-mapping: How many customers and where are they located.
- Cost of operation.
- Amount of rental space needed in post-early retirement environment: counties have less staff and managers. Here our preference would be to renegotiate current leases for less space and cost.
- Economies of scale relating to management coverage and staff availability for work assignment.
- Availability of space in other office site(s).
- Maintenance of services access enhancements for customers. These include installing a toll-free telephone number so customers will not incur long distance charges and implementing transparent county lines so customers can access services from the closest FIA office, even if it is not in their county of residence.

For example, in reviewing the potential closing of the Ann Arbor Satellite office and consolidating all staff in the main Ypsilanti office, we found:

- All children and adult services are currently provided from the main, Ypsilanti office.
- The Ann Arbor office has 27 of the total 138 county staff: 23 eligibility staff and 4 administrative support.
- All fiscal operations are currently provided from the main Ypsilanti office.
- The Ann Arbor office is only 6.3 miles from the Ypsilanti office. They are connected by a bus route. Average travel time via bus is 33 minutes, including one transfer.

- Ann Arbor customers can phone Ypsilanti as a local call.
- Approximately 50% of the current Ann Arbor customers actually live closer to the Ypsilanti office.
- A large percentage of the Ann Arbor caseload is composed of Medicaid cases. A significant number of these cases are generated by a nursing home and two hospitals. These and the Social Security Income (SSI) cases have very infrequent contact with local office staff due to the length of their benefit eligibility period.
- The Ypsilanti office will accommodate all Ann Arbor staff with extra space available.
- Due to reduction of staff following early retirement, we need less than half the current rental space for the remaining Ann Arbor staff.
- The office closing will provide \$307,600 annual savings.

I hope the above information helps to illustrate the planning and considerations used to determine facility consolidations. Please let me know if you would like to discuss any of this information in further detail.

JOHN ENGLER
GOVERNOR

STATE OF MICHIGAN
OFFICE OF THE STATE BUDGET
LANSING

October 28, 2002

DON GILMER
DIRECTOR

copies to: Mark J.
Mike S.
Jim N.
11/1

MEMORANDUM

TO: Directors of Departments and Autonomous Agencies

FROM: Don Gilmer *DG*
State Budget Director

SUBJECT: Building Occupancy and Leased Space Savings

I have requested that the Director of the Department of Management and Budget (DMB) take the lead in the development of a statewide cost reduction plan in the area of rent and building occupancy. Continuing budgetary pressures and recent reductions in the state workforce make this task a critical one. The state spends over \$235 million annually on building occupancy and rent charges, so even relatively modest savings in this area could be significant.

The Director of DMB and his staff have identified a series of preliminary strategies and areas of immediate attention. They will be working collaboratively with all departments and agencies to refine these ideas, with special emphasis on those agencies heavily affected by early retirement and those with numerous leased offices.

Effective immediately, there will be a freeze on new space requests, except those specifically designed to reduce overall space needs, save money, and/or to cope with relocations due to early retirement. The Director of DMB is empowered to grant exceptions to this freeze, if necessary.

The purpose of this communication is to strongly urge your close collaboration and cooperation with DMB as this plan moves ahead. Agencies that have been independently considering proposals in this area are requested to involve DMB in their plans as soon as possible.

**FIA Legislative Briefing Information for Consolidation of the Leelanau County
FIA Office into the Grand Traverse County FIA Office**

The Leelanau County FIA office is being consolidated into the Grand Traverse County Office. This consolidation is in response to a DMB directive to reduce rent and building occupancy costs and took into consideration the impact on client services, the current staffing allocations, the supervisory availability and the cost implications. There was also consultation with the FIA boards in each county and the Board of Commissioners in each county. Both County Boards have agreed that such a consolidation is prudent. The Grand Traverse FIA office is relocating to a new site.

Client Services:

- . Over 40% of the Leelanau County clients (1445) live closer to the Traverse City office than the Leelanau office.
- . In Leelanau County, there are 41 FIP cases and 294 Food Assistance cases. The remaining cases are predominantly Medicaid. Food Assistance cases and Medicaid cases require infrequent contact with the local office.
- . Children's Protective Services, Adult Protective Services and Adult Independent Services for Leelanau County are already being provided by the Grand Traverse County office.
- . Currently, 80% of our Assistance Payments cases are in Grand Traverse County.
- . Only two clients in Leelanau County live in an area where long distance charges apply.
- . FIA will maintain a presence in Leelanau County. At a cost of \$185 per month, space will be rented in Lake Leelanau at the Connie Binsfeld Family Resource Center.
- . The new location for the Grand Traverse FIA office is on an established bus route, the old Grand Traverse County office was not.

Supervisory Availability

- . There are 8 staff currently at the Leelanau FIA office. Some of these staff have been travelling to Grand Traverse County to cover vacancies.
- . Four supervisors are assigned to Grand Traverse, One to Leelanau. All Supervisors travel between the two counties to provide coverage.
- . All fiscal operations are handled out of the Grand Traverse office.

FTE Allocation

- . Grand Traverse County has a FY 2003 allocation of 42.
- . Leelanau County has a FY 2003 allocation of 10 (2 positions recently transferred to Grand Traverse Co)

Cost Implications of Consolidation

- . Both local offices are currently leased from private parties. The new lease arrangement for the Grand Traverse County Office would be with the Department of Management & Budget since it is in the State Office Building. The yearly savings will be \$165,000.

Consolidation Time Line

Both landlords have been notified. It is anticipated that the consolidation will be completed by July 31, 2003.

Department of Human Services
Facility Five Year Plan

Fiscal Years 2006 – 2010
October 1, 2005 – September 30, 2010

Introduction

The DHS Fiscal Year 2004/05 Appropriation Act, Section 261.(1) states, in part:

*The department, with the county family independence agency boards of directors and the department of management and budget, shall develop a 5-year plan in every county to restructure local offices. Issues to be covered shall include service delivery structure, **facility needs**, caseload size, and administrative support. Any plan presented shall ensure that the department provides a presence and services in every county.* [Emphasis added.]

In order to assess the facility needs of DHS several meetings were conducted within DHS and county directors completed extensive surveys. A list of facilities deemed not suitable was created as a result of this effort. Other categories of needed work were developed, e.g., modular redesign, however, these can be handled in-house at little or no expense and are, therefore, not included in this report. The priority ranking developed by this process was:

- Dickinson County - relocation
- Shiawassee - relocation
- Mackinac - relocation
- Isabella repair/redesign/relocate
- Otsego - redesign
- Kalamazoo - repair/redesign/relocate
- Monroe – redesign/relocate
- Calhoun – repair/redesign

Coincidental with this in-house effort, the Department of Management and Budget engaged the Staubach Company to develop State of Michigan Strategic Real Estate Plan. Staubach contracted with Ghafari Associates to assist with this project. In the development of the DHS portion of the statewide strategic plan a project team comprised of Staubach, Ghafari, DMB and DHS staff engaged in extensive interviews and on-site visits throughout the state. The list developed by this project, in priority order, is:

- Kent County – Grand Rapids
- Dickinson County – Iron Mountain
- Isabella County – Mount Pleasant
- Genesee County – Pierson Road District Office
- Shiawassee County – Owosso
- Mackinac County – St. Ignace
- Kalamazoo County – Kalamazoo

The two projects have been consolidated and the results presented in the Department of Human Services Five-Year Facility Plan.

Forthcoming Issues Affecting the Plan

1. Funding

The Field Operations portion of these recommendations are approximately \$7.3 million. Field Operations is and will continue to experience a shortage of CSS&M and Equipment funding for the foreseeable future. Therefore, even though these projects are seen as necessary it is presumed that without a specifically earmarked funding appropriation that pursuit of these projects will be impossible.

2. Fiscal Year 2005/06 proposed Boilerplate states:

The Department, in conjunction with the County Family Independence Agency Boards of Directors and the Department of Management and Budget, shall develop a plan to restructure and consolidate Zone Offices and Local Offices. This plan shall include an emphasis on maximization of services while maintaining a reduction in administrative costs. Duplication of services shall be identified and solutions to remove the duplication shall be detailed in the plan. Any plan presented shall ensure that the Department provides a presence and services in every county. The plan shall be submitted to the Senate and House appropriations Subcommittees for the Department Budget by January 15, 2006 and shall include an implementation date during the 2005 –2006 fiscal year.

The results of this plan will, of course, impact the proposals contained in the Facility Five-Year Plan and, vice versa. However, until the 2005/06 plan is finalized, it is impossible for foresee the impact. The requirement for this plan makes the Facility Five-Year Plan obsolete before it is implemented.

3. BRIDGES Impact

The BRIDGES project is a 3 – 5 year systems project intended to provide worker relief, reduce operational expense and refine the client service environment. At some point during the project, it may be determined that reconfiguration of all local offices will be necessary based on changed business processes due to BRIDGES.

4. Co-location Efforts

DHS is continually seeking opportunities to co-locate with other state and local agencies. The Department has been working with DLEG for two years seeking co-location efforts between DHS and Michigan Works Agencies. There has been one successful co-location (Manistee); additional co-locations will occur as opportunities are identified.

5. Office Consolidation & Staffing

DHS County Offices consolidations are being driven by staffing shortages, i.e., there are not enough staff to adequately staff two adjacent County Offices. Therefore, all staff merge into one of the two offices; a satellite office is established in the county that lost the full-time office. Satellite offices allow clients access without excessive travel and allow DHS to comply with the requirements of the Social Welfare Act that an office be located in every county. Additional unanticipated office consolidations may occur because staffing drops below that number adequate to maintain two offices.

Review and Update

The Plan will be distributed, reviewed and updated, as necessary, on an annual basis in a timeframe to coincide with the budget preparation cycle. Therefore, the period of time comprising the "five year" plan period will advance one year annually.

Status Report on Co-location – FIA-MWA One Stops
As of March 11, 2004

- On January 13, 2004 a letter was sent out to all Michigan Works! Agencies (MWA) requesting that all MWA directors contact their local Family Independence Agency (FIA) directors to discuss the possibility of co-location in their county. A similar letter was sent out by FIA on February 13, 2004 to all of their FIA offices.
- On March 9, 2004 all responses that were received by the Office of Workforce Development (OWD) and FIA were compiled into a matrix.
- On March 10, 2004 a meeting took place with Janet Howard, Terry Salacina, Brian Marcotte, John Helrigel, and Lisa Dove to discuss the findings and determine which sites were viable options for co-location. The following two sites are currently co-locating:
 - Menominee
 - Manistee

The MWAs and FIAs in the following locations had previously co-located within the same complex/campus:

- Midland County
- Emmet County

Two sites are actively attempting to co-locate within the next fiscal year:

- Oakland County - Pontiac
- Osceola County

Based on lease expiration dates and/or the availability of a third site location, the following seven sites may find it necessary to pursue co-location within the next fiscal year:

- Calhoun County-Albion
 - Clinton County
 - Dickinson County
 - Shiawassee County
 - Lapeer County
 - Iron County
 - Baraga County
- The Calhoun County MWA has established a presence in the CAN school service center, which can be considered a co-location success. Similar partnerships will be explored as the next twenty CAN sites roll out.
